## ***FASTRAC***

In 1998, the LAPD's new command accountability program FASTRAC – Focus, Accountability, Strategy, Teamwork, Response and Coordination – became fully operational. Weekly FASTRAC meetings examine crime, traffic and management issues and focus on data, analysis and strategies. With the Department's primary objective being to reduce crime and the fear of crime in the City of Los Angeles, emphasis is placed on performance, which will be the basis of evaluation for Department staff and command personnel.

The record-setting low crime rate in Los Angeles suggests that the Department's new FASTRAC program is making a very positive impact on the community it serves.

**"FASTRac": COMPStat circa 1998**

COMPStat circa 2014

Welcome to DataLA, the open data portal for the City of Los Angeles. Here you will find data to conduct research, develop web, online, and mobile applications, and generally learn more about Los Angeles. This site allows you to subscribe to changes in datasets, request new datasets, and participate in discussions with other users. We look forward to seeing what you do with DataLA.
