 Benchmarks for Blight In 2006, the U.S. Department of Housing and Urban Development (HUD) began acquiring quarterly extracts of U.S. Postal Service (USPS) data and publishing this data as a possible indicator of blight and vacancy for cities nationwide. In this report, addresses coded as "no-stat" in the HUD data are used as proxies for blight ed housing units in New Orleans because a parcel-by-parcel census of all properties in New Orleans is not available. (HUD data description available at: http://www.huduser.org/portal/datasets/usps.html) No matching rows found	254 views		
 NORA Uncommitted property, CE Demolitions, Lien Forclosures Bligh t ed structures that have been demolished since the inception of Bligh t Stat on October 1, 2010. Bligh t Stat is a public meeting that tracks the City's progress in meeting Mayor Landrieu's stated goal of eliminating 10,000 bligh t ed New Orleans properties in three years. Scheduled update: Monthly No matching rows found	267 views		
 Blight Status Demolitions Bligh t ed structures that have been demolished since the inception of Bligh t Stat on October 1, 2010. Bligh t Stat is a public meeting that tracks the City's progress in meeting Mayor Landrieu's stated goal of eliminating 10,000 bligh t ed New Orleans properties in three years. Scheduled update: Monthly In February 2014, the City made several changes to the dataset involving data cleaning and de-duplication. This process entailed adding demolition start and completion dates to demolitions, cleaning and verifying the addresses of demolitions, and removing duplicate cases based on their GeoPIN. The data set still includes several cases with duplicated GeoPINs, where multiple units were demolished on the same parcel. No matching rows found	1,874 views		
 Blight Status Demolitions - Map Bligh t ed structures that have been demolished since the inception of Bligh t Stat on October 1, 2010. Bligh t Stat is a public meeting that tracks the City's progress in meeting Mayor Landrieu's stated goal of eliminating 10,000 bligh t ed New Orleans properties in three years. Scheduled update: Monthly. In February 2014, the City made several changes to the dataset involving data cleaning and de-duplication. This process entailed adding demolition start and completion dates to demolitions, cleaning and verifying the addresses of demolitions, and removing duplicate cases based on their GeoPIN. The data set still includes several cases with duplicated GeoPINs, where multiple units were demolished on the same parcel. No matching rows found	1,886 views		
 Post- Isaac Emergency Demolitions Buildings that experienced severe structural failure as a result of Hurricane Isaac, 8/28-8/30/12. Many of these buildings were bligh t ed before Isaac, but the storm exacerbated their condition to a point where they were deemed a threat to public safety, and were expedited as IDC cases, or "Imminent Danger of Collapse" No matching rows found	234 views

"It changed the conversation." - Fast Company

A group of volunteers are building a wooden frame for a house. Two people are on ladders working on the roof structure. Others are on the ground, some wearing white t-shirts with logos. The scene is outdoors under a clear blue sky.

"The app proposes a new kind of more productive communication between the two groups that moves past angry and frustrated citizens on one end, and a paralyzed city on the other."
